

MANUAL PORRA 2026

Hello everyone! Welcome to the ultimate World Cup sweepstake, where you will prove how much you actually know about football. Getting started is super simple, but winning the cup will require strategy, precision, and, above all, keeping a close eye on the clock.

This sweepstake will be played entirely through the website I have created (the days of Excel spreadsheets are long gone!):  <https://www.porramundial.club/>

 **Administrator's Note:** Before we begin, I ask for a little patience and understanding regarding any errors the website might contain. It shouldn't fail, but if an issue arises that affects the normal course of the sweepstake, I will immediately refund your €10 investment.

REGISTRATION AND PRIZES

The €10 registration fee accumulates entirely into the sweepstake's prize pool, and the winner or winners will take it all. Depending on how many of us join, the prizes will be distributed as follows:

- **From 1 to 29 players:** A single winner takes 100% of the total accumulated pool.
- **From 30 to 39 players (Two winners):**
 -  1st place: **65%** of the total pool.
 -  2nd place: **35%** of the total pool.
- **From 40 players onwards (Three winners):**
 -  1st place: **60%** of the total pool.
 -  2nd place: **25%** of the total pool.
 -  3rd place: **15%** of the total pool.

THE TWO PHASES OF THE SWEEPSTAKE

The game includes many new features and is divided into two major phases to keep it dynamic and help break potential ties:

1. **FIRST PHASE (Before the start of the World Cup):** You must fill in the results for the group stage, simulate your knockout brackets all the way to the final (creating your own podium), and fill in your predictions for the "Extra Prizes." All of this must be completed **before the kickoff of the very first match of the World Cup 2026**.
2. **SECOND PHASE (Starting June 28th):** This begins when the real teams advance from the group stage to the official Round of 32. Here, we will bet on the actual matches that are going to be played. Keep a very close eye on this date!

HOW TO ACCESS THE WEBSITE

The website has protected access via a verification system:

1. **Get your TOKEN:** I will personally provide you with a customized code (TOKEN) as soon as you pay the €10 registration fee.
2. **Create your account:** Enter the TOKEN in the box on the home screen to validate it. Right after, the website will ask you to set up your account with a **Username, Email, and Password**.
3. **Subsequent logins:** Once your account is created, you won't need the token for future visits; just click on "**¿YA TIENES CUENTA? ENTRAR**" (**ALREADY HAVE AN ACCOUNT? LOG IN**) and sign in directly with your email and password.

HOW TO SUBMIT YOUR PREDICTIONS

STEP 1: The Group Stage (Phase 1)

- **Deadline: Before June 11th, 2026.**
- Enter the **PRONÓSTICOS (PREDICTIONS)** section. You must go through every single group (from **GROUP A to GROUP L**).
- In each group, there are 6 matches defined by FIFA. Enter your predicted scores for each one. As you type them in, you will see how the website automatically generates a simulated standings table below.
- **Very Important:** When you finish filling in the 6 matches of a group, you must press the "**CONFIRMAR Y CERRAR**" (**CONFIRM AND CLOSE**) button to save and lock that group. You need to do this process for all 12 groups.

STEP 2: Your Knockout Bracket (APUESTAS Section)

- Once you have closed all 12 groups (A to L), the **APUESTAS (BETS)** tab will unlock automatically.
- This section will start by showing the **Round of 32**, structured according to the standings generated by your own simulated group stage results.
- Your goal here is to design your path to the final: each match has a dropdown menu with the two teams from the previous round so you can choose who you think will win.
- Do this all the way down through the knockout phases (Round of 16, Quarter-finals, Semi-finals) until you reach the **Grand Final** and the **Third-Place Match**.
- Finally, select the teams for your **FINAL PODIUM** (Champion, Runner-up, Third, and Fourth) and you must press the "**CERRAR APUESTA MUNDIAL**" (**CLOSE WORLD CUP BET**) button to ensure your predictions are saved in the system.

STEP 3: The Extra Prizes

- The final step of the first phase consists of predicting the tournament's official awards.

- Go to the **PRONÓSTICOS** section and click on the * **EXTRAS** button.
- You will find categories such as the Golden Ball, Golden Boot, Golden Glove, etc. Each box has a searchable autocomplete dropdown menu where you can type to find the player or team you want.
- When you are done, don't forget to press the "**GUARDAR PREMIOS EXTRAS**" (**SAVE EXTRA PRIZES**) button.

⚡ **SECOND PHASE: THE WORLD CUP IN REAL TIME (Phase 2)**

- **Start Date: June 28th.**
- As the real tournament progresses, I will update the officially qualified teams as the administrator so that the real brackets form on the website.
- To predict these direct elimination matches, you will need to go to **PRONÓSTICOS** and click on the corresponding active knockout phase (ROUND 32, ROUND 16, etc.).
- Whenever you input the result of a real match, **ALWAYS** remember to press the "**GUARDAR PRONÓSTICOS**" (**SAVE PREDICTIONS**) button.
- Since the official brackets are configured day by day, I recommend entering your results as soon as the matches appear on the website.

⚠ **GOLDEN RULES OF THE GAME (NO DISTRACTIONS ALLOWED)**

- **The clock does not forgive:** You can change any result you have entered as many times as you want, **as long as you do it before that specific match begins**. The exact moment the match kicks off, it will lock automatically.
- **What happens if you don't bet on time?:** If the match starts and you leave the boxes blank, it will lock completely. You will lose the opportunity to score points for that match, and the system will mark it as "No Bet (N/A)". You can still fill in the rest of the matches, but time is ticking!
- **Watch out for the 0 - 0!:** If you firmly believe a match will end in a scoreless draw, **you must enter the zeros manually before the opening whistle**. If you leave the box empty thinking that "blank" counts as a zero, the website will interpret that you did not want to bet. Make sure to type the score!

SCORING SYSTEM: HOW DO YOU WIN?

The overall standings of the sweepstake are calculated completely automatically by adding up your match predictions, team progressions, and extra prizes:

A. Progression Scoring (From 1 to 10 points)

You will score points for the teams in your simulated brackets that **exactly match the teams that advance in the real World Cup**. It doesn't matter if they qualify on a different side of the bracket; the only thing that counts is that they made it to that round.

- Team reaching the **ROUND OF 32**: +1 Point per correct team.
- Team reaching the **ROUND OF 16**: +2 Points per correct team.
- Team reaching the **QUARTER-FINALS**: +4 Points per correct team.
- Team reaching the **SEMI-FINALS**: +8 Points per correct team.
- Team reaching the **FINAL**: +10 Points per correct team. *(Note: Teams assigned to the consolidation final for 3rd and 4th place do not score points in this section).*

B. Exact Score Bonus (+5 points)

If you guess the exact number of goals scored by both teams in a match, you get **5 points** directly. This applies to all matches in the sweepstake.

 **NOTE ON EXTRA TIME:** Penalty shootouts are not included. The valid result for the sweepstake will be the score at the end of regular time or extra time (if applicable).

C. Extra Prizes (+10 points per correct guess)

Each category you guess correctly in the * EXTRAS section will add **10 points** to your overall score.

- *Example:* If you vote for Lionel Messi as the best player and he is officially awarded that prize at the end of the tournament, you score 10 points. You don't need to guess all of them right; each category is independent.
- A **maximum of 50 points** can be earned in this section.

USEFUL TIPS FOR THE PLAYER

- **Check the Schedule:** Get into the habit of logging onto the website a couple of days before each matchday to confirm all your predictions are saved and up to date.
- **Don't leave groups half-done:** During the group stage, make sure to press the close group button as soon as you finish its matches to secure your participation.
- **Demo Mode:** If you log in with the account demo@mundial.com (password Demo_1234), you will be in a read-only simulation mode. You can mess around and see how the rankings would change by simulating scores, but the database will not save your changes permanently.

Let the ball roll and may the best win!
